

**REMARKS/COMMENTS**

The present amendment is being submitted to correct formal matters. The foregoing amendments are needed for proper disclosure or protection of the invention and require no substantial amount of additional work on the part of the PTO.

In particular, the amendments to the specification are being made to have the specification properly reference the FIG. nos. of the formal drawings being submitted herewith. In this regard, the formal drawings have divided original FIGS. 5, 6, 7, and 8 as follows:

FIG. 5 has been divided into FIGS. 5A - 5D;

FIG. 6 has been divided into FIGS. 6A – 6B;

FIG. 7 has been divided into FIGS. 7A – 7B;

FIG. 8 has been divided into FIGS. 8A – 8D.

In view of the foregoing, the specification has been amended to properly reference the new FIG. reference numbers. No new matter has been introduced to the specification.

As mentioned above, the present amendment is necessary to have the specification properly reference the FIG. numbers of the formal drawings. This amendment was not earlier presented because the applicant did not become aware of this issue until formal drawings were prepared in accordance with 37 C.F.R. 1.84, and necessitated the division of FIGS. 5-8.

The applicant respectfully requests that the applicants' petition for entry of the foregoing amendments be accepted, and that the present application proceed to issuance.

If the Examiner believes there are any further matters which need to be discussed in order to expedite issuance of the present application, the Examiner is invited to contact the undersigned.

Respectfully submitted,

Michael A. Jaffe
